SUSO33 : ONe Line La Fabrica

The Centro de Arte Tomas y Valiente (Ceart) has hosted this year the first anthological show devoted to the Madrid- based artist SUSO33. An international figure in what is known as "urban art", for some time his work has overstepped the bounds of this label and expanded into almost all the artistic disciplines, including painting, performance, video and the performing arts. SUSO33 views the creative process as an aesthetic commitment to the environment, to people and their problems (human art), not as a factory of artistic objects for the market. The book and exhibition -curated by Susana Blas- survey three decades of his history, from his roots as a graffiti artist to his latest stagings.
