Spanish for Beginners: Vocabulary for children (Spanish Edition) Lusvila Diaz

¿Why learn a new language? Exposing a child to a second language allows him or her to optimize their learning potential. Standardized testing has shown that Elementary students who studied a foreign language scored higher on tests in reading, math, and language arts. Young children are ideally suited to learn a second language—cognitively, it is as easy as learning a first language. Children who have learned a foreign language show greater cognitive development in mental flexibility, creativity, reasoning, and problem-solving. We provide everything a child needs to quickly learn Spanish, including over 200 Spanish words.
