Whether used at home or in the classroom, this bright and breezy elementary encyclopaedia covers topics ranging from Acid to Zebras and everything in between, covering both the simplest and the trickiest of topics with distinct, unpatronising ease. The simple cross-referencing boxes at the end of each page allow the reader to effortlessly move between related subjects, and the combination of eye-catching illustrations and full colour photography adds a dynamic sense of depth and interest to each page. The bold and decisive design encourages young eyes to move across the pages without losing any of the impact of the facts, and a series of fun, step-by-step experiments and activities advocates further investigation through reading and imagination. An A-Z encyclopaedia with over 3,000 illustrations which answer all the tricky questions in clear and concise words and pictures, *The Ultimate First Encyclopaedia* is pure joy for young children with a lust for knowledge. --*Susan Harrison*
